

DEMOS MIGRANT PORTAL

www.demosmigrantportal.com

ABOUT THE PORTAL

Demos migrant portal is a specialized scientific portal, in three languages (Croatian, English, German), in the area of demography and migration. The purpose of the portal is the systematization of knowledge and information on demography and migration.

The portal has an epistemological and policy dimension. The portal has sprung out of the international scientific project, Globalization of migration (www.globe-migrant.com)

Potential portal users are the scientific community in the social humanistic sciences, government bodies, EU administration, international institutions, policymakers, and media.

Portal is a non-profit digital media, it follows the model of open public sources. Development and maintenance will be financed by advertising, sponsorship, donations, and support by different domestic and international institutions.
